Canada lifts blanket travel advisory related to COVID-19

<https://travel.gc.ca/travelling/advisories>

Exemptions for fully vaccinated travellers

If you qualify as a fully vaccinated traveller you are:

Required to show a pre-entry molecular test

Required to use ArriveCAN

Required to take an arrival test if selected

Exempt from quarantine

Exempt from Day-8 testing

All travellers are eligible to enter Canada if they qualify as a fully vaccinated traveller regardless of citizenship. Canadians are always eligible to enter Canada but must complete testing requirements and mandatory quarantine if they do not qualify as a fully vaccinated traveller.

A pre-entry molecular test is required for all travellers. A rapid antigen test will not be accepted.

If you provide essential services or already qualify for other exemptions from quarantine and Day-8 testing, you don't need to be considered a fully vaccinated traveller to enter Canada. If you think you qualify for other exemptions, [find out if your travel is exempt](#).

Take advantage of the IATA Global Tracker Information:
